Hi, my name is Umar. I have 6+ years of experience in React Native along with 10 years of experience in developing, deploying, launching and maintaining front-end and back-end applications from scratch.

I specialize in JavaScript and TypeScript ecosystem with experience in various different languages, libraries and frameworks.

I am working in React Native since its early days. I have built several React Native apps since 2016. I believe I can be of great value.

Following are some of my published React Native apps:
